

Tree Bear

Tree Bear, an ambassador for forestry and natural resource education in Oklahoma, embodies the message: "Good Things Come From Trees."

Tree Bear promotes awareness about the vital role of trees in our environment and daily lives. From providing timber for construction and paper products to sustaining wildlife habitats and purifying the air we breathe, trees are essential to our well-being and ecosystem health.

Through Tree Bear's message, we aim to inspire appreciation for forests and encourage sustainable practices in managing our natural resources. Join Tree Bear in celebrating the many gifts that trees offer and learn how you can contribute to their conservation and responsible use for generations to come.
